## IN BOSTON MARKETS.

Butter Is Lower, While Eggs Hold Firm—Cheese Steady.

Boston, May 8.—Butter is lower in local market, but at the new level prices are fairly firm. Considerable stock has accumulated when business started Monday morning and the demand was so low that receivers had to cut their prices ½ to 1c a pound in order to make sales. Large quantities of fancy creamery were moved at 26 to 26½c and the supply of that grade is not as burdensome as it was. The medium and low grades sell slowly and there is little doing in imitations, ladies or renovated butter. Fine dairy stock is in fairly good demand and box and print goods are moderately active. Cheese does not change much. Receipts of eggs are large, but supplies of choice fresh laid stock are none too large and prices are firm.

Butter—Creamery, extra Vermont and New Hampshire 24½c, northern New York 26½c, western 26 to 26½c, creamery firsts, northern 24 to 25c, western 24 to 25c, eastern creamery, best marks 25 to 25½c, fair to good 23 to 24c, dairy fancy 23c, common to good 20 to 23c, western imitation creamery 21 to 24c, western ladies 20 to 21c, packing stock 19 to 22c, renovated butter 23 to 25c, box and print stock 20 to 23c.  
Cheese—New York twins, fancy 14½ to 14¾c, fair to good 13 to 14c, Vermont twins, fancy 14½ to 14¾c, fair to good 13 to 14c.  
Eggs—Fancy henery 20c, eastern extras 19c, common to good 17 to 18c, western fancy 18 to 18½c, choice 18c, common to good 16½ to 17½c, fresh laid southern 16 to 17½c, western dirties 15½ to 16c, western storage 18½ to 19c.

Note—The above quotations represent the prices obtained by receivers for wholesale lots and are not jobbing prices.

## My Best Friend.

Alexander Benton, who lives on Rural Route 1, Fort Edward, N. Y., says: "Dr. King's New Discovery is my best earthly friend. It cured me of asthma six years ago. It has also performed wonderful cures of incipient consumption for my son's wife. The first bottle ended the terrible cough, and this accomplished, the other symptoms left me by one, until she was perfectly well. Dr. King's New Discovery's power over coughs and colds is simply marvelous." No other remedy has ever equalled it. Fully guaranteed by the Red Cross Pharmacy, 50c, and \$1.00. Trial bottle free.

Rice Paper. Rice paper is not made from either rice or straw, but from a pithy plant found in China, Korea and Japan.

A Complex Calendar. The Chinese have a singularly complicated calendar. Their cycles have sixty years, each year, month and day having its own name, and by combining these the day, month and year are designated.

Lemons. In selecting lemons avoid those that seem light in weight and that have thick rinds that resist pressure. A juicy lemon is heavy and thin skinned and gives under the fingers when pressed. Lemons may be kept fresh a long time by wrapping them separately in tissue paper and keeping them in a cool place.

Watches. Watches are adjusted to heat and cold by being allowed to stand first in a room heated with dry heat to 120 degrees and then in cold storage, being regulated after each treatment.

Chinese Beggars. In the northern parts of China there are many villages which are almost deserted in winter, the inhabitants going south, where they live by begging. They form regular guilds and literally compel shopkeepers to help them by threatening to cause a riot in front of their stores, which Chinese merchants abhor.

Flying Birds. Some idea of the terrific force with which a bird passes through the air may be gained through the fact that a common curlew flew right through a piece of plate glass a quarter of an inch thick at Turberville lighthouse, Ayrshire, Scotland.

Dynamite. Dynamite's explosive force is about eight times greater than that of gunpowder, and it has the peculiarity of being exerted in a downward direction.

Sweet Pea. The sweet pea was first cultivated in Sicily about the year 1700, and of the four original varieties two came from Sicily and two from Cyprus. The time to plant the sweet pea is as soon as the spring as the soil can be turned without clogging.

The Koran. The Koran consists of 114 suras, or chapters. Each chapter begins, "In the name of the most merciful God."

Ireland. The inhabitants of Ireland were called "Scots" long before Scotland acquired her present name. The first name under which Ireland was known was Jerusa.

## Royal Titles.

The kings and queens of England were not always styled "his" or "her" majesty or after the pattern of that bestowed upon Victoria, "her most gracious majesty." Henry IV. was styled "his grace;" Henry VI. "his most excellent grace;" Edward IV. "high and mighty prince;" Henry VII. "his grace and his majesty;" Henry VIII.
